

Name	RIVALTA
Location	rivalta
Description	Fortified borough; the main buildings are the parish church and the castle built on a rock along the left bank of the river Trebbia. The complex is dominated by a cylindrical tower upon which a smaller tower was built in 1700. First evidence of Rivalta's existence date back to 1048. It had several owners throughout the centuries. The borough is made of ancient houses and S. Martinos parish church, 15th century building with firebrick decorations.
